

Vocal Audition Requirements

Vocal Music Majors

Students who are auditioning as a vocal major should prepare two selections in the art song/classical genre – one in a foreign language is preferable. Something much like you would prepare for OSSAA high school solo contest is appropriate. An accompanist can usually be provided with notice and prospective students should bring their sheet music. A small ear training and music theory placement test will be administered after the audition.

Vocal Non-Music Majors

Non-music majors auditioning for a non-major scholarship should prepare one selection in the art song/classical genre. An accompanist can usually be provided with notice and prospective students should bring their sheet music.
