

Learning Resources

At the Cappi Wadley Reading and Technology Center, we are dedicated to providing everyone with the tools they need to reach their learning goals. With 16 individual computer rooms, 5 family reading rooms, 3 group study pods, 3 classrooms, and a large reading library, we are equipped to meet the learning needs of a variety of students.

Special Events

In addition to our day to day resources, we host special events each semester focused on making learning fun and exciting for the whole family. Be sure to follow The Capitola "Cappi" Wadley Reading and Technology Center on Facebook for more information on Family Literacy Nights, guest authors and presenters, and special activities.

Services & Resources

NORTHEASTERN
STATE UNIVERSITY

Face-to-face Tutoring

Face-to-face tutoring is offered by education majors who have been trained in best practices for reading instruction. Teacher candidates assess children and tailor instruction based on that assessment. Teacher candidates and trained volunteers work with children for one hour per week for ten-twelve weeks.

Read Live

Read Live applies the research-based Read Naturally Strategy to accelerate reading achievement. Visual and auditory prompts guide students to develop fluency and phonics skills, and support comprehension and improve vocabulary. Students build fluency and motivation by reading short, nonfiction passages, and increase reading accuracy and expression with audio support. It helps students experience success and an improved attitude towards reading.

MobyMax

MobyMax finds and fixes learning gaps with personalized learning. Its adaptive curriculum creates an individualized education plan for each student, allowing gifted students to progress quickly and ensuring that remedial students get the extra instruction as needed. MobyMax is utilized in both reading and math tutoring.

MindPlay

MindPlay Virtual Coach teaches students to comprehend grade-level text and to read text fluently. It uses strategies of successful teachers and speech pathologists to help struggling readers read.

Reading Eggs

Reading Eggs supports each child's learning by offering individual lessons. It focuses on five core reading curriculum: phonemic awareness, phonics, vocabulary, comprehension, and fluency. Reading Eggs uses skills and strategies for sustained reading success.

Fast ForWord

Fast ForWord uses adaptive reading strategies, activities and exercises to remediate the most foundational processing weaknesses at the root of dyslexia. It fills in missing language and reading skills. Fast ForWord also helps children with dyslexia process rapidly changing sounds and adapts the difficulty of the content based on individual student's responses.

Headsprout

Headsprout is for K-5 students that provides one adaptive, individualized reading solution. It is designed to instill phonemic awareness, phonics, fluency, vocabulary, and beginning comprehension.

Duolingo

Duolingo is a language learning— platform website. Duolingo is available in English, Spanish, Japanese, Chinese, and many other languages.

Dual Language Library

We have a large collection of books in English, Spanish, and dual text editions. Read the English copy while referring to the Spanish text for help understanding English words and phrases.

ESL Assistance

Our ESL options are built to provide a range of choices for improving English skills with language lessons in our educational software, immersive learning lessons through Duolingo, or reading and listening with our extensive book and audiobook library. Using any or all of these options helps develop the skills help develop the skills needed in the language learning process.
