

Grammar and Usage

✓ Subject – Verb Agreement

A verb must agree in number (singular or plural) with the subject of the sentence. Singular subjects take singular verbs; plural subjects take plural verbs.

Singular Plural

The *office is* closed. Many *offices are* open past 5 p.m.

The word before the verb is not always its subject. Look for who or what is doing the action.

• Remember that two singular subjects joined by *and* are plural and need a plural verb.

My mother and father celebrate their anniversary in August.

Sometimes an insertion separates the subject and verb.

The secretary, not the other employees, answers the phone.

The man who sells homemade burritos has a large mustache.

• Sometimes a prepositional phrase separates the subject and the verb; read the sentence without the phrase to determine the correct verb.

One of the students was caught cheating on the exam.

• Words with *one* and *body* are singular.

Everyone except the new employees was given a raise.

• *-ing* phrases are usually singular.

Driving at night requires extra caution.

✓ Verb Tenses

Use present tense verbs to state a fact, describe an ongoing action, or relate an incident in film
or literature.

Dogs make excellent companions for the elderly.

Hamlet stages a play to trap the man who murdered his father.

• Use simple past tense to narrate an event that happened once.

Johnson hit a three-point shot to win the game.

• Use was or were for a state of being in the past.

Kelli was sick vesterday.

• For the past continuing up to the present, use *has* or *have* plus the past participle--usually an *-ed* ending.

Matt's grandfather has lived in the same house since college.

• Use *had* plus the past participle, usually an *-ed* ending, when you are writing in the past tense and want to refer to an earlier event.

After a year had passed, Tiffany and Frank divorced.

• To indicate the future tense, look at the following forms:

Nikki will graduate next spring.

Nikki is going to graduate next spring.

Nikki is graduating next spring.

• Be verbs: is, am, are, was, were

Be verbs are used as helping verbs with -ing verbs or with past participles--usually -ed.

Marie is traveling to Italy this summer.

The World Trade Center was bombed on September 11, 2002.

• Have verbs: have, has, had

Have verbs are used as helping verbs with past participles-usually -ed.

We have waited long enough!

Ross has always wanted a dog as a pet.

Other helping verbs:

She finally did finish her paper last night.

As a child, I could write with either hand.

✓ Irregular Verbs

The following lists twenty-five irregular verbs. Most dictionaries list the forms of irregular verbs.

Present	Past	Past Participle (after have or be verb
am, is, are	was, were	been
bring	brought	brought
come	came	come
cost, costs	cost	cost
do, does	did	done
draw	drew	drawn
drink	drank	drunk
eat	ate	eaten
fall	fell	fallen
fly	flew	flown
freeze	froze	frozen
get	got	gotten
go	went	gone
grow	grew	grown
have, has	had	had
know	knew	known
lay (put)	laid	laid
lie (recline)	lay	lain
rise (get up)	rose	risen
run	ran	run
see	saw	seen
shine (sparkle)	shone	shone
shrink	shrank	shrunk
speak	spoke	spoken
throw	threw	thrown

✓ Pronouns

• Consistent Pronouns

Make sure pronouns agree in *number* and *gender*. Avoid shifting from *a person* to *they* and from *I* to *you*. Consider the following sentence:

<u>A person</u> should start a savings plan early if <u>they</u> want to retire comfortably.

In this sentence, *person* is singular, meaning it requires a singular pronoun (*he* or *she*); the pronoun *they* is plural, which again can make the sentence awkward and can lead to errors. Instead, write:

<u>A person</u> should start a savings plan early if <u>he or she</u> (not they) wants to retire comfortably. However, <u>he or she</u> can be awkward when used repeatedly. So try making the subject plural:

People should start a savings plan early if they want to retire comfortably.

The same principle applies to indefinite pronouns (pronouns that refer to nonspecific persons or things). Formal English treats pronouns such as *anybody, everyone, somebody,* and *someone* as singular; therefore, they require a singular pronoun:

In my class, everyone works to the best of his or her (not their) ability.

Similarly, this principle applies to other generic nouns:

Every musician must practice regularly if he or she (not they) wants to excel.

Again, the *he or she* or *his or her* constructions can be cumbersome. As another option, make the antecedents plural or rewrite the sentence so that no problem of agreement arises.

• Correct Pronouns

I, she, he, we, they, and *who* identify the persons doing the action. *Me, her, him, us, them,* and *whom* identify the persons receiving the action.

My brother and I saw the latest summer blockbuster last night.

John gave the tickets to Chris and me.

Between you and me, Joanne is headed for trouble.

• Vague Pronouns

Certain pronouns--which, it, this, that, and who-must refer to a single word, not to a whole phrase. Keep them near the word they refer to.

It

Make sure the reader knows what it is. It is often weak at the start of the sentence.

Charlie ate three hamburgers and a piece of chocolate cake for dessert. It made him sick. (What made Charlie sick? The hamburgers? The cake? Both?)

Charlie ate three hamburgers and a piece of chocolate cake for dessert. The big meal made him sick.

This

This cannot refer to a whole situation or a group of things, so insert a word after this to clarify what this refers to.

Rebecca's co-workers come in late, gossip all day, and leave early. This makes her angry. Rebecca's co-workers come in late, gossip all day, and leave early. This behavior makes her angry.

That

Like *this, that* cannot refer to a whole situation or group of things. When *that* seems unclear, replace it with what *that* stands for.

Rebecca's boss yelled at all of her lazy co-workers and then fired them. Rebecca thought that was long overdue.

Rebecca's boss yelled at all of her lazy co-workers and then fired them. Rebecca thought those actions were long overdue.
