ADDITIONAL INFORMATION

The Physician Assistant is a professional member of the health care team qualified by intense basic science and clinical training to function under the supervision of a physician. The Physician Assistant is not a physician replacement, but works as an efficient way for physicians to extend health care service to you and your family.

Employment Opportunities

Tasks depend on the supervising physician's practice setting and specialty, the laws of Oklahoma, and the individual situation. Tasks may include: obtaining a patient's accurate medical history, performing a thorough physical examination, performing routine diagnostic tests such as PAP smears and EKG's, diagnosing and treating common medical problems, writing medical orders in hospitals, ordering medications according to Oklahoma law, initiating emergency treatment, assisting in surgery, debriding, suturing and caring for superficial wounds, making hospital rounds, and providing you and your family with education pertaining to the disease process and treatment plan. Physician Assistants are trained to function in a variety of settings such as private offices, clinics, hospitals, emergency departments, HMO's, neighborhood health centers, industry branches of the armed services, and federal and state facilities.

Minimum Application Requirements

The Admissions Committee bases its decision upon an applicant's overall GPA, science GPA, number of overall and science credit hours, personal interview scores, types and quality of health care experience, personal references, score on the general test component of the GRE, and the applicant's written statement on why they want to be a Physician Assistant. The application process is highly competitive. Completion of all pre-requisites does not guarantee that an applicant will be offered an interview for final selection.

Applicants must be a US citizen or permanent resident. Both OUHSC-PA programs (in OKC and Tulsa) require an earned Bachelor's Degree from an accredited university. All pre-requisites must be completed with a grade of C or better by the end of the spring semester prior to starting the PA Program. Science prerequisites must be no older than 7 calendar years.

Please visit <https://medicine.ouhsc.edu/Prospective-Students/Degree-Programs/Physician-Associate-Program/Prospective-Applicants/Prerequisite-Requirements> for questions regarding course transfers from other colleges and universities.

1. A minimum grade point average of 3.0 on a 4.0 scale
2. Good standing with the college or university last attended or currently enrolled
3. Complete application for admission at <https://paeaonline.org/caspa/>
4. Three letters of reference submitted directly to CASPA
5. Submit a one page, typewritten statement on "Why I Wish to Become a Physician Associate" and a resume
6. Must take the general test component of the GRE. All GRE scores must be received by the PA Program by the October 1 deadline; therefore applicants are encouraged to take the test no later than September 1st. Information regarding GRE can be obtained at www.gre.org.
7. The Tulsa and Oklahoma City Programs operate independently and conduct admission separately; however, applicants will be able to note on their application whether they wish to be considered for the Oklahoma City program, the Tulsa program, or both. It is the responsibility of the applicant to check with the individual program to which they are applying for additional application information. OU-Tulsa [Physician Assistant Program](#) or OUHSC in Oklahoma City [Physician Associate Program](#)

It is the applicant's responsibility to make sure all requirements are turned in prior to the October 1 deadline. You can check the status of your application at [Admissions and Records - ApplyOUHSC](#)

The OKC PA Program will admit up to 50 students selected by an admissions committee. The OKC program lasts for 30 months and consists of 17 months of didactic training on the Health Science Center campus and 13 months of rotations at various hospitals, clinics, and doctor's offices within the state.

The OU-Tulsa Program typically admits 24 students. The OU-Tulsa program lasts for 30 months and consists of 14 months of didactic training and 16 months of rotations at various hospitals, clinics, and physician offices within the state.
