

### **Professional Liability Insurance Companies**

Pre-licensure students are covered under a group policy for student nurses paid for through student fees in their Associate Degree Program. Once you have passed NCLEX and are a Northeastern State University nursing student, you will be required to have professional liability insurance as a Registered Nurse (**not** nursing student) in your own name. There are two companies offering acceptable professional liability insurance policies. The approximate cost is \$100/year, but those licensed less than one year may receive a 50% discount. After purchasing your policy online, you will also need to complete the “Request for Certificate Holder/Endorsement” form on the NSU website and send it to the insurance carrier of your choice.

#### **MINIMUM COVERAGE \$1 million per incident, \$3 million per aggregate**
