

In an effort to help students maximize their degree requirements, the courses listed below each major are the 'short cut' courses in general education that also serve as requirements in the major. This list simply calls to attention particular courses the students would need to complete or gives guidance to the university advisor when providing advisement for students who know what major they are pursuing. This is not an exhaustive list of general education requirements for each major and the advisor should consult the NSU catalog and defer the student to the academic advisor for further help.
