Criminal Justice

Cyber Security

Drama

Step 1: Begin crossing out any majors you know you are not interested in.

Step 2: With the majors left on your list, explore the “Plan of Study” for each found on the major’s website. Look at what classes you would take if you chose that major. If you do not like the classes, cross out the major.

Step 3: With the majors left on your list, explore “What can I do with a major in...” and the FOCUS 2 tools to discover careers you may be interested in within those majors.

Step 4: With your final list, consider pursuing an experiential learning opportunity through Career Services (i.e. job shadowing, informational interview...).

Step 5: Meet with a Career Counselor to discuss any final questions you have about your choice. When you are ready to declare your major, schedule an appointment with your university/academic advisor!
