### **Meeting Notes:**

1. The conversation focused on rubrics. As per the previous meeting, the group reviewed ILO rubric options from other institutions and posted them on the SLA Bb site.
2. The committee noted that NILOA's rubrics were commonly used. The discussion focused on the best way to align the rubric options. The committee consensus is to provide a general ILO rubric to present to programs. Programs can align to this rubric, or use their own rubric. A question was raised pertaining to variance in assessment scale. Dr. Ivie and Dr. Giese noted that variance can be accounted for statistically.
3. Committee members noted that the progress made toward an Office of IE is critical to the success of the ILO implementation. The committee would like to invite Provost Arant to the next meeting to discuss that progress and the committee's charge going forward.
4. The next meeting is scheduled for **March 11, 12:00 pm. Bagley 101 – BAPT 125 via Collaborate.**
5. **Meeting was adjourned at 1:15 pm.**
