Student Learning & Assessment Meeting Minutes

Meeting Date: January 28, 2015, 12:00 pm, Tahlequah Campus, A117 with Skype to BA

Members Present: Broken Arrow Campus: Dr. Julia Kwok, Dr. Lisa Tritchler. Tahlequah Campus: Dr. Pam Fly, Dr. JoAnn Starkweather, Dr. Mark Giese, Dr. Darryl Linde, Dr. Jerrid Freeman, Dr. Mia Revels, Dr. Cheryl Van Den Handel, Ms. Shari Clevenger, Ms. Lowe-Thompson, and Dr. Cari Keller.

Handouts: Example ILO Mapping Documents.

Meeting Notes:

1. The committee discussed the mapping options for assessing ILO's within our general education and program courses. Three options were discussed:
 - a. Mapping to the program outcome
 - b. Mapping to the course (embed within a course)
 - c. Mapping to the assignment or assessment activity
2. The dialogue focused on the most logical connection between the outcome levels, and the ease with which the process will flow at the program level. As program outcomes are already largely mapped to program courses with assessments already developed and being implemented, ILO alignment to the program outcomes should flow.
3. Dr. Starkweather, CBT, noted that the CBT maps to the program outcome and embeds within courses currently. The committee discussed that all colleges may not be completely at this level, but they are working towards the goal of having all program outcomes mapped to courses within those programs.
4. Ms. Lowe-Thompson, NSGA, noted that alignment with the program outcome makes sense from the student perspective.
5. Dr. Keller noted that general education could be treated as program for mapping purposes.
6. The committee consensus was that NSU ILO's should be mapped to program outcomes. The spreadsheet should also request the specific course and assessment

activity to be used.

7. During our next meeting, we will discuss common rubrics.
8. The next meeting is scheduled for **February 11, 12:00 pm in Admin A117 with electronic delivery to BA.**
9. **Meeting was adjourned at 1:00 pm.**
