

Northeastern State University
College of Liberal Arts
Department of Music

Music Student Handbook: 2021-2022

Mission, Goals and Objectives

The Northeastern State University Music Department is part of the School of Visual and Performing Arts and the College of Liberal Arts. Its mission is to provide undergraduate education leading to the Bachelor of Music Education degree (with options in Instrumental and Choral/Vocal music) and Bachelor of Arts degree (with options in Musical Arts, Music (Business), Performance and Jazz & Commercial Music), and to provide coursework directed to the general student population. Through quality teaching, research and scholarly activities, service to local and professional communities, and high expectations, our dedicated faculty and staff provide a friendly learning environment where students are prepared to achieve socially responsible career and personal goals for success in a challenging global society.

Students participate in the music program at Northeastern State University through enrollment in academic classes, performance-oriented ensembles, and applied music lessons. Accordingly, this diversity of experiences will create a diversity of purposes, goals, and objectives for the department.

The goals of the music program include:

1. providing the necessary curricular experiences to prepare majors and minors for professional work and/or graduate school in music education, music performance, and the music industry;
2. providing each music major with the essential skills and expertise to perform at the appropriate level, to apply the principles of music theory/analysis to a musical score, understand and identify the major developments and composers within different historical periods, to be familiar with music of different cultures and of different media, to utilize music technology in their music endeavors, to improvise and compose appropriately;
3. providing the necessary musical experiences to accommodate the professionally oriented music majors and minors AND the general interest student;
4. providing an appropriate curriculum to accomplish such a task, including a logical course sequence throughout the program;
5. providing the necessary professional staff to deliver such a program;

6. providing the necessary equipment to support such a program.

In addition to the student-oriented goals listed above, the department also subscribes to goals that promote an understanding of the role of a musician in the context of the greater world in which we live. These include:

- a. delivering high-quality programs for the public in the form of faculty recitals, student recitals, and concerts performed by the department's ensembles;
- b. promoting faculty and student involvement in activities which support the arts, and especially music, in the community;
- c. providing support to campus and community activities where those organizations are involved in issues related to music;
- d. functioning, by the faculty, as effective musical role models for students.

Specific goals stated here as terminal objectives guide the development, implementation, and evaluation of the music curriculum. These objectives state what the music department's graduates should be able to do after completing that curriculum.

Bachelor of Music Education

After completing the course of study, a graduate should be able to:

1. perform successfully on at least one instrument with technical proficiency, and with awareness of all musical elements;
2. perform a twenty-five minute solo recital;
3. understand and interpret the musical score independently and satisfactorily;
4. conduct and lead musical ensembles, thus helping the group to understand and to respond to the aesthetic content of the music being performed;
5. read, write, compose, improvise, transcribe, and arrange music as necessary, including exhibiting appropriate ear training skills;
6. explain the relationship of musical elements (rhythm, melody, harmony, form, etc.) in a given piece of music;
7. demonstrate a functional knowledge of the capabilities of the voice, as well as string, wind, percussion, and fretted instruments;
8. demonstrate a satisfactory knowledge of the history and literature of the art, including a diversity of cultural sources, historical periods, and media;

9. demonstrate a satisfactory knowledge of effective pedagogical techniques of the art;
10. demonstrate a satisfactory knowledge and skill level of appropriate technology as it applies to music.

Bachelor of Arts: Performance Option

After completing the course of study, a graduate should be able to:

1. perform standard, solo and ensemble advanced literature of all musical style-periods (and languages, if a voice student) on at least one instrument with technical skill, and with awareness of all musical elements;
2. perform a fifty-minute solo recital;
3. understand and interpret musical scores independently, thus leading to musically effective and stylistically accurate performances;
4. audition for performance programs at the graduate level;
5. provide intelligent criticism of musical performances;
6. understand the performer's role in small, performance ensembles;
7. demonstrate a satisfactory knowledge of the history and literature of the art, including a diversity of cultural sources, historical periods, and media
8. demonstrate a comprehensive knowledge of the literature of the performer's instrument/art, as well as its historical context;
9. discuss the major pedagogical concepts of the art;
9. read, write, compose, improvise, transcribe, and arrange music as necessary;
10. explain the relationship of musical elements (rhythm, melody, harmony, form, etc.) in a given piece of music;
11. if a voice student, demonstrate an appropriate knowledge of three foreign languages;
12. demonstrate a satisfactory knowledge and skill level of appropriate technology as it applies to music.

Bachelor of Arts: Jazz Studies and Commercial Music option

1. perform a fifty-minute recital;
2. demonstrate a satisfactory knowledge of secondary instruments related to the primary instrument;
3. improvise in a variety of musical genres, with respect to harmonic, melodic, rhythmic and stylistic concerns;
4. demonstrate a satisfactory knowledge of jazz and popular music composition and arranging techniques;
5. demonstrate a satisfactory knowledge of effective pedagogical techniques of the art;
6. demonstrate a satisfactory knowledge of audio production skills;
7. demonstrate a satisfactory knowledge of music business skills;

Bachelor of Arts: Music (Business) option

After completing the course of study, a graduate should be able to:

1. demonstrate a basic performing ability on one instrument;
2. utilize concepts of financial accounting;
3. explain the principles of modern macroeconomics;
4. demonstrate a knowledge of the roles, responsibilities and skills required of a modern business manager;
5. demonstrate a knowledge of management functions in music, theatre, art, and dance institutions;
6. demonstrate a knowledge of “music-specific” considerations such as inventory, equipment, and brand names, related to the field of music;
7. exhibit marketing skills needed to succeed in the music business including knowledge of industry trends and needs of music educators/musicians;
8. display computer skills related to any such software appropriately used in the business world;
9. read, write, compose, improvise or arrange music as necessary, including exhibiting appropriate ear training skills;

10. explain the relationship of musical elements (rhythm, melody, harmony, form, etc.) in a given piece of music;
11. demonstrate a satisfactory knowledge of the history and literature of the art of music, including a diversity of cultural sources, historical periods, and media.

General Information

After Hours Access to the Fine Arts Building

Students will be allowed access to the Fine Arts Building for practice after the facilities have been secured. They must fill out the security access form (use form below, or also available from the department secretary, FA 219), have it signed by their applied teacher, and submit it to the department office for approval. If approved, an access card will then be issued which the student then presents to campus security when desiring entrance to the building. These cards must be renewed each semester.

Auditions

Any student wishing to pursue a music degree at NSU must successfully complete a performance audition for entrance into the applied area of concentration (instrumental, piano, vocal). This audition is normally performed during the spring, before a student's first year of study. Students who have not auditioned for admission to the program prior to the beginning of a semester must do so during the first week of classes. A student who fails to do so must be considered provisional until this performance is met. Double majors must perform a successful audition in both performance areas. Auditions for entrance into a music program is a requirement of NASM, the National Association of Schools of Music, of which NSU is a member. This requirement must be fulfilled before degree plans can be approved and advisors assigned. Students who return after an absence of 5 years or more will be required to re-audition.

Aural Health

It is important that musicians understand how to protect themselves aurally. See pg. 66 ("Protect Your Hearing Every Day") below for detailed information.

Computer Lab

The lab, located in FA 201, will be available for student use during assigned hours. Various computer programs, such as Finale and Music Lessons are available for student use.

Course Offering Sequences

Advanced Conducting and Rehearsal Techniques will be offered with an instrumental emphasis in **odd** numbered springs and Choral emphasis in **even** numbered springs.

Music Pedagogy is offered in odd fall semesters (starting Fall 09) for instrumental students; in odd springs for vocals students, and for jazz studies & commercial music students.

The following courses for music education majors will be offered in the following sequence:

Odd Springs: MUS 3031 Percussion Class

Odd Falls: MUS 3051 String Class
 Even Springs: MUS 3091 Brass Class
 Even Falls: MUS 3071 Woodwind Class

Music (Business) students: DRAM 4003 Arts Management (a required course) is offered in even spring semesters.

Degree Works - Degree Audit: Need to know what courses you still need to take? Do a degree audit, available from www.nsuok.edu. Under My NSU click on Degree Works- Degree Audit. Login with your NSU user name and password. Use the “What-if degree audit” if you would like to explore other options. Please: be in regular contact with your advisor!!!

You will need the appropriate major code to run your audit:

CODE	DEGREE PROGRAM
------	----------------

4652I	BME Instrumental
4652V	BME Vocal
4652P	BME Percussion
4652KI	BME Keyboard/Instrumental
4652KV	BME Keyboard/Vocal

4646PERF	Performance (Instrumental)
4646PERFP	Performance (Piano)
4646PERFV	Performance (Vocal)

4649JAZZ	Jazz Studies and Commercial Music Option (Non-Piano)
4649PIANO	Jazz Studies and Commercial Music Option (Piano)

4647BUS	Music (Business)(Instrumental)
4647BUSP	Music (Business) (Piano)
4647BUSV	Music (Business) (Vocal)

4645ARTS	Musical Arts (Instrumental)
4645ARTSP	Musical Arts (Piano)
4645ARTSV	Musical Arts (Vocal)

Declaring a Major

Students are to declare a major in music by the beginning of their sophomore year and preferably by the second semester of study. Transfer students are to declare a major in music by the end of their first semester as an NSU student. Before a music major can be declared, students must successfully complete a performance audition (see Auditions). After the major has been

declared, students will be provided an official plan of study, which specifies all the course requirements for the degree. It goes into effect after it has been accepted by the department chair. After the degree plan is accepted, the student will be assigned a music faculty member as his or her advisor. The degree plan protects the student against any changes in the curriculum that might happen at a later date. Requests for a change of major, if necessary, can be done at any time.

Ensembles

Music majors are required to participate in at least one major music ensemble for a specified number of semesters. The eligible ensembles are: Marching Band/Concert Band (MUS 3611), University Chorus (MUS 3631), or, for Jazz Studies and Commercial Music students, Jazz Ensemble (MUS 3641). Bachelor of Music Education students are required to participate for seven semesters; BA Jazz Studies and Commercial Music, Applied and Performance students, eight semesters; BA Musical Arts, Music (Business) and General Music, four semesters.

Final Exam Schedule

The schedule can be found at GoNSU on the university website.

Keyboard Lab: see Computer Lab

The Lab is located in FA 201

Lockers:

Small lockers are available in the practice room corridor. Large lockers are provided for those students desiring accommodations for large instruments. Locker requests must be made with the department secretary.

Minimum Grade Requirement

Grades lower than a "C" will not apply for music major or music minor.

MUSIC 2020 or MUSIC 2021: see Recital Lab

Piano Requirement

Music majors are required to complete the piano requirement before junior standing can be granted. All students must pass Piano Classes I-IV

Junior Standing

Except for students enrolled in the BA Musical Arts and Music (Business) degree program, all music majors must pass the Junior Standing Jury as prescribed by the music area (keyboard, instrumental, vocal) before enrollment in any of 4000 level applied music. Junior standing is also a prerequisite to MUS 3030, 3031, Junior Recital and MUS 4031, Senior Recital.

Only two attempts to pass the junior standing jury are allowed. If a student fails the jury for a second time, he or she may no longer continue in a professional degree program: Bachelor of Music Education, Bachelor of Arts in Performance, Bachelor of Arts in Jazz Studies and Commercial Music. The student may continue in a liberal arts degree program in music: Bachelor of Arts in Musical Arts and Bachelor of Arts in Music (Business).

Policies, procedures, and music unit standards regarding retention at the junior standing level.

After the junior standing jury has been successfully completed (usually at the end of the sophomore year), students may enroll in upper division (4000 level) applied instruction. In the semester following the admission to upper division work, junior standing status may be revoked if the student does not perform a successful jury at the end of each semester. If junior standing is revoked, the junior standing jury must be retaken and passed before the student will be allowed to enroll in 4000 level instruction again.

Guitar

Before a student can enroll in upper level applied instruction (4000 level), they must pass the junior standing barrier. Students may attempt to pass the barrier at the end of the fourth semester of private instruction and after two student recital hour performance (four student recital performances for performance majors) and completion of the piano proficiency requirement. Students are allowed two attempts to pass the junior standing barrier. Students failing to pass the junior standing barrier on the second attempt will not be allowed to continue the music major degree plan.

BME

- 1) Scales: major, melodic and harmonic minor, all keys, two octaves.
- 2) Solo Repertoire: two unaccompanied solo pieces from the list below.
- 3) Sight-Reading: to be chosen by a different instructor, treble clef w/single note lines and chords.

BA Performance option

- 1) Scales: major, melodic and harmonic minor, all keys, two octaves.
- 2) Solo Repertoire: four unaccompanied solo pieces from the list below.
- 3) Sight-Reading: to be chosen by a different instructor, treble clef w/single note lines and chords.

BA Jazz Studies and Commercial Music option

- 1) Scales: major, natural minor, melodic minor, harmonic minor. 2 octaves when possible with 4-note accompanying arpeggiations.
- 2) Solo Repertoire: One Classical selection, chosen from the list below. Two jazz standards from memory chosen at random from jazz repertoire list below.
- 3) Sight-Reading: to be chosen by a different instructor, treble clef single notes and chords, chord symbol reading from lead sheet notation.

Repertoire

JS Bach	Minuet in G
JS Bach	Prelude in Dm
JS Bach	Bouree in Em
JS Bach	Cello Prelude #1
Sor	Estudio 1
Sor	Estudio 2
Sor	Estudio 5
Sor	Estudio 6
Carcassi	Etude 3
Carcassi	Etude 7
Villa-Lobos	Prelude 3
Villa-Lobos	Etude 1
Tarrega	Adelita/Lagrima
Carulli	Etude in Am

Low Brass (trombone, euphonium, tuba)

Before a student can enroll in upper level applied instruction (4000 level), they must pass the junior standing barrier. Students may attempt to pass the barrier at the end of the fourth semester of private instruction and after two student recital hour performances (four student recital performances for performance majors) and completion of the piano proficiency requirement. Students are allowed two attempts to pass the junior standing barrier. Students failing to pass the junior standing barrier of the second attempt will not be allowed to continue the music major degree plan.

BME

- 1) Scales: all major, natural minor, harmonic minor, and melodic minor scales two octaves, where appropriate, from memory, performed in the pattern of one quarter note and seven eighth notes per octave with the quarter note equaling 108 beats per minute.
- 2) Solo Repertoire: An accompanied solo off the list below or a major work for trombone, euphonium/baritone, or tuba as approved by the instructor.
- 3) Sight-Reading: to be chosen by a different instructor that may include tenor, alto, or treble clef as well as transpositions.
- 4) Technical exercises

BA Performance option

- 1) Scales: all major, natural minor, harmonic minor, and melodic minor scales, two octaves for memory, performed in the pattern of one quarter note and seven eighth notes per octave with the quarter note equaling 108 bpm.
- 2) Repertoire: An accompanied solo off the list below or a major work for trombone, euphonium/baritone, or tuba as approved by the instructor.
- 3) Sight-Reading: to be chosen by a different instructor that may include tenor, alto, or treble clef as well as transpositions.
- 4) Technical exercises

BA Jazz Studies and Commercial Music option

- 1) Scales: Major, natural, melodic and harmonic minor. 2 octaves when possible with 4 note accompanying arpeggiations.
- 2) Solo Repertoire: One Classical selection, chosen from the list below. Two jazz standards from memory picked at random from jazz repertoire list below.
- 3) Sight-Reading: to be chosen by a different instructor.

Repertoire

Trombone

Bozza	Ballade
David	Concertino in Eflat
Ewazen	Sonata
Hindemith	Sonata
Jacob	Concerto (mvmt 1)
Pryor	Blue Bells of Scotland
Rimsky-Korsakov	Concerto (all 3 mvmts)
Sulek	Sonata Vox Gabrieli
Telemann	Sonata

Euphonium

Barat	Introduction and Dance
Baratto	Andantino Amoroso
Fackenpohl	Sonata
Galliard	Sonatas No. 1-6
Horowitz	Concerto
Jacob	Fantasia

Marcello	Sonatas No. 1-5
White	Lyric Suite
<u>Tuba</u>	
Barat	Introduction and Dance
Capuzzi	Andante and Rondo
Frackenpohl	Variations for Tuba
Gregson	Tuba Concerto
Hindemith	Sonata
Vivaldi	Concerto in Am
Wilder	Suite No. 1 "Effie"
R. Vaughan Williams	Concerto for Bass Tuba

Percussion

Before a student can enroll in upper level applied instruction (4000 level), they must pass the junior standing barrier. Students may attempt to pass the barrier at the end of the fourth semester of private instruction and after two student recital hour performances (four student recital performances for performance majors) and completion of the piano proficiency requirement. Students are allowed two attempts to pass the junior standing barrier. Students failing to pass the junior standing barrier of the second attempt will not be allowed to continue the music major degree plan.

BME

- 1) Scales: all major, natural minor, harmonic minor and melodic minor scales. Two octaves at a minimum 108 bpm from memory.
- 2) Solo Repertoire: An etude or solo or excerpt, from the list below, must be performed on 2 of the following instruments: snare drum, xylophone, marimba, timpani
- 3) Sight-Reading: to be chosen by a different instructor, performed on either snare drum, xylophone, marimba, or timpani.

BA Performance option

- 1) Scales: all major, natural minor, harmonic minor and melodic minor scales. Two octaves at a minimum 108 bpm from memory.
- 2) Solo Repertoire: An etude or solo or excerpt, from the list below, must be performed on two of the following instruments: snare drum, xylophone, marimba, timpani.
- 3) Sight-Reading: to be chosen by a different instructor, performed on either snare drum, xylophone, marimba, or timpani.

BA Jazz Studies and Commercial Music option

- 1) Scales: Major, natural, melodic and harmonic minor. 2 octaves when possible with 4 note accompanying arpeggiations.
- 2) Solo Repertoire: One Classical solo piece, approved by the professor, and chosen from the repertoire list below. Two jazz standards from memory picked at random from jazz repertoire list below.
- 3) Sight-Reading: to be chosen by a different instructor.

The junior standing jury will consist of one snare drum/multi percussion solo, one mallet solo, and one timpani solo from the standard repertoire, all major and minor scales (memorized), and sight reading to be chosen by a different instructor.

Repertoire

Snare drum

Cirone Portraits in Rhythm

- 1) Etude no. 11 pg. 13
- 2) Etude no. 42 pg. 45

Xylophone

Goldenberg Modern School for Xylophone
1) Etude no. 8 pg. 67
2) Etude no. 18 pg. 76
3) Porgy and Bess Excerpt pg. 122, beginning to no. 69

Marimba

Peters Yellow after the Rain
JS Bach/arr. Moore Toccata and Fugue in Dm
Aibe Frogs

Timpani

Firth Solo Timpanist
1) Etude no. 1
2) Etude no. 10

Piano

Before a student can enroll in upper level applied instruction (4000 level), they must pass the junior standing barrier. Students may attempt to pass the barrier at the end of the fourth semester of private instruction and after two student recital hour performances (four student recital performances for performance majors) and completion of the piano proficiency requirement. Students are allowed two attempts to pass the junior standing barrier. Students failing to pass the junior standing barrier of the second attempt will not be allowed to continue the music major degree plan.

BME

- 1) Successful completion (a grade of C or higher) of two semesters of MUS 3111 Keyboard Skills
- 2) Successful completion (a grade of C or higher) of four semesters of Applied Piano; MUS 2111, 2112
- 3) Documented performances in 2 student recitals
- 4) Scales: major and harmonic minor scales at the speed of quarter note equals 90 bpm.
Major and minor arpeggios at the speed of quarter note equals 90 bpm.
- 5) Solo Repertoire: 3 repertoire pieces, at least two memorized representing three different historical periods.
Total playing time 12 minutes.
- 6) Sight-Reading: to be chosen by a different instructor

Repertoire

JS Bach A Sinfonia or 2 movements from a dance suite
Haydn, Mozart, Beethoven A movement of a Classical Sonata
A Romantic Work e.g. Chopin Nocturne or Waltz
a work by Debussy/Ravel
a “contemporary” work representing the 20th or 21st century

BA Performance option

- 1) Successful completion (a grade of C or higher) of two semesters of Keyboard Harmony; MUS 3111
- 2) Successful completion (a grade of C or higher) of four semesters of Applied Piano; MUS 2112
- 3) Documented performances in 5 student recitals
- 4) Scales: major, natural & harmonic minor scales at the speed of quarter note equals 120 bpm
Major and minor arpeggios at the speed of quarter note equals 120 bpm
- 5) Repertoire: One etude of Chopin, Liszt, Scriabin, or comparable difficulty
3 repertoire pieces, all memorized, representing three different historical periods. Total playing time 15 minutes.
- 6) Sight-Reading: to be chosen by a different instructor

BA Jazz Studies and Commercial Music option

- 1) Scales: Major, natural, melodic and harmonic minor. 2 octaves when possible with 4 note accompanying arpeggiations.
- 2) Solo Repertoire: One Classical solo piece, approved by the professor, and chosen from the repertoire list below. Two jazz standards, melody memorized with three choruses of improvisation, songs approved by the

professor, chosen from the list of suggested songs provided to students in Instrumental Jazz Improvisation 1-4.
 May be accompanied by student colleagues in combo, or by recorded track.
 3) Sight-Reading: to be chosen by a different instructor.

Repertoire

- JS Bach WTC: A Prelude and Fugue
- JS Bach 2 movements from a dance suite (Allemande, Courante, Sarabande, Gigue)
- Haydn, Mozart, Beethoven 1st movement of a Classical Sonata
- A significant Romantic work, or a grouping of smaller Romantic works
- A work by Debussy/Ravel
- A “contemporary” work representing the 20th or 21st century

Upper Brass

Before a student can enroll in upper level applied instruction (4000 level), they must pass the junior standing barrier. Students may attempt to pass the barrier at the end of the fourth semester of private instruction and after two student recital hour performances (four student recital performances for performance majors) and completion of the piano proficiency requirement. Students are allowed two attempts to pass the junior standing barrier. Students failing to pass the junior standing barrier of the second attempt will not be allowed to continue the music major degree plan.

BME

- 1) Scales: major and minor (natural, harmonic, melodic) scales and arpeggios
- 2) Solo Repertoire: A solo (approved by the instructor) chosen from the advanced/intermediate level solo list found in the handbook.
- 3) Sight-Reading: to be chosen by a different instructor
- 4) Technical Exercises

BA Performance option

- 1) Scales: major and minor (natural, harmonic, melodic) scales and arpeggios. Quarter note at 108 bpm.
- 2) Solo Repertoire: to be chosen from the list below
- 3) Sight-Reading: to be chosen by a different instructor (including some transposition)
- 4) Technical Exercises

BA Jazz Studies and Commercial Music option

- 1) Scales: Major, natural, melodic and harmonic minor. 2 octaves when possible with 4 note accompanying arpeggiations.
- 2) Solo Repertoire: One Classical solo piece, approved by the professor, and chosen from the repertoire list below. Two jazz standards from memory picked at random from jazz repertoire list below.
- 3) Sight-Reading: to be chosen by a different instructor.

Repertoire

- Haydn Concerto in Eflat (complete)
- Torelli Concerto in D (complete)
- Handel Suite in D
- Enesco Legende
- Charlier Solo de Concours
- Gabaye Boutade
- Kennan Sonata for Trumpet and Piano (play two of three mvmts)
- Stevens Sontata for Trumpet (play two of three mvmts)

Voice

Before a student can enroll in upper level applied instruction (4000 level), they must pass the junior standing barrier. Students may attempt to pass the barrier at the end of the fourth semester of private instruction and

after two student recital hour performances (four student recital performances for performance majors) and completion of the piano proficiency requirement. Students are allowed two attempts to pass the junior standing barrier. Students failing to pass the junior standing barrier of the second attempt will not be allowed to continue the music major degree plan.

BME

- 1) Successful completion of four semesters of applied voice.
- 2) Minimum of three mixed recital performances (or equivalent for transfers). Combined studio performance may be substituted with agreement from the applied teacher.
- 3) Solo Repertoire: Students must perform three memorized selections from their prepared pieces, one in English and the two remaining from at least two of the following languages: Italian, German, French
- 4) Full International Phonetic Alphabet transcription for all selections, to be assessed by voice faculty in junior standing jury.
- 5) Full word-for-word translations for all foreign language selections, to be assessed by voice faculty in junior standing jury.

BA Performance option

- 1) Successful completion of four semesters of applied voice.
- 2) Minimum of four mixed recital performances (or equivalent for transfers). Combined studio performances may be substituted with agreement from applied teacher.
- 3) Solo Repertoire: Students must perform four memorized selections from their prepared pieces, one in English and the three remaining from at least two of the following languages: Italian, German, French. An operatic or oratorio aria in the original language must also be included.
- 4) Full International Phonetic Alphabet transcription for all selections, to be assessed by voice faculty in junior standing jury.
- 5) Full word-for-word translations for all foreign language selections, to be assessed by voice faculty in junior standing jury.

Woodwinds

Before a student can enroll in upper level applied instruction (4000 level), they must pass the junior standing barrier. Students may attempt to pass the barrier at the end of the fourth semester of private instruction and after two student recital hour performances (four student recital performances for performance majors) and completion of the piano proficiency requirement. Students are allowed two attempts to pass the junior standing barrier. Students failing to pass the junior standing barrier of the second attempt will not be allowed to continue the music major degree plan.

BME

- 1) Scales: all twelve keys, full practical range of the instrument, including, but not limited to majors, harmonic and melodic minors, chromatic, whole tone, diminished, augmented, modes of the major scale or modes of the ascending melodic minor scale.
- 2) Solo Repertoire: One Classical Solo piece, approved by the instructor, chosen from the repertoire list below.
- 3) Sight-Reading: to be chosen by a different instructor
- 4) Technical exercises

BA Performance option

- 1) Scales: all twelve keys and arpeggios, full practical range of the instrument, including, but not limited to majors, harmonic and melodic minors, chromatic, whole tone, diminished, augmented, modes of the major scale or modes or the ascending melodic minor scale
- 2) Solo Repertoire: Two Classical solo pieces, approved by the instructor, chosen from the repertoire list below.
- 3) Sight-Reading: to be chosen by a different instructor
- 4) Technical exercises

BA Jazz Studies and Commercial Music option

- 1) Scales: Major, natural, melodic and harmonic minor. 2 octaves when possible with 4 note accompanying arpeggiations.

- 2) Solo Repertoire: One Classical solo piece, approved by the professor, and chosen from the repertoire list below. Two jazz standards from memory picked at random from jazz repertoire list below. This may be accompanied by student colleagues in combo, or by recorded track.
- 3) Sight-Reading: to be chosen by a different instructor.

Repertoire (Suggested Intermediate/Advanced for Woodwinds)

Alto Sax

Benson,	Farewell, MCA

Degree Recitals

Normally the junior recital, of a length of twenty-five minutes, would be performed during the second semester after completing the junior standing jury. Before the recital can be performed, students must pass a recital hearing scheduled at least 30 (thirty) days before the scheduled recital date. Hearing/recital committees will be selected in agreement with the studio instructor. The hearing committee will rule whether or not the student is allowed to perform their recital with designations of Pass, Fail, or Defer. If passed, the student may give the recital. If failed, the student must reschedule the recital and a hearing must be scheduled no later than 30 days in advance of the scheduled recital date. If deferred, the student must rectify certain areas of their performance as detailed in writing by the faculty hearing committee and perform those areas again no later than 2 weeks after the initial hearing.

Hearing/recital committees must be comprised of at least 2 faculty members (full-time or adjunct).

If the recital is not performed successfully, junior standing status may be revoked. If it is performed successfully, the student begins preparation for the senior recital, normally performed in the final semester. As with the junior recital, students must pass a recital hearing.

Hearing/recital committees will be selected in agreement with the studio instructor. The hearing committee will rule whether or not the student is allowed to perform their recital with designations of Pass, Fail, or Defer. If passed, the student may give the recital. If failed, the student must reschedule the recital and a hearing must be scheduled no later than 30 days in advance of the scheduled recital date. If deferred, the student must rectify certain areas of their performance as detailed in writing by the faculty hearing committee and perform those areas again no later than 2 weeks after the initial hearing. Hearing/recital committees must be comprised of at least 2 faculty members (full-time or adjunct).

If the recital is performed successfully, the student will have completed all the requirements in performance on his or her instrument. If it is not performed successfully, junior standing may be revoked. A new recital will have to be prepared and performed.

Juries

Juries, which are held during finals week, are a standard part of any music program, and are an important part of your final grade in studio music. Music majors, minors, and scholarship students are required to perform a jury. During your jury, you will perform music from the

repertoire you have learned during the semester. You and your teacher will determine exactly what you will perform in the jury. The requirements for each jury are designated by the major area (vocal, instrumental, keyboard). Jury committees must be comprised of at least 2 faculty members (full-time or adjunct).

Recital Lab

MUS 2020 and MUS 2021 are listening classes required of every music major enrolled at NSU. Students must attend at least fourteen public performances of various types. Do not wait until the last minute to try to pass as the schedule is subject to change. Go to the concerts as they happen.

COVID-19 adjustments: Recital Attendance will be possible through watching curated video performances available via EdPuzzle. Information forthcoming on Blackboard.

The purpose of recital lab is to expose you to the body of literature outside your area of expertise. Therefore 2020/21 credit is given only for events in which you are an audience member; you do not get credit for solo recitals, band, choral, or jazz ensembles in which you participate. You may earn credit by performing on mixed recitals or chamber recitals, where you play on one thing and hear the rest. It is a zero credit course and is graded Pass/Fail. It can't hurt your GPA, but it can keep you from graduating. If you fail 2020/21 you must make up the requirement in the semester immediately following.

When you go to a concert, you must find the faculty member with the check-in sheet before **and** after the program. (If you are playing on a mixed recital, you don't have to check in, but you do have to check out to get credit). For off-campus events and ticketed events (for example Tulsa Symphony Orchestra), both the program ***and*** ticket must be submitted to the department secretary, who will pass the information on to the department chair. All such documentation ***must*** be submitted within one week of the event. You should also monitor your progress on Blackboard. Check it for accuracy, and if you see a problem, talk to the department chair and he/she will recheck the attendance sheet for that day. You need to do this ***before*** grades are submitted.

A list of approved Recital Lab events is part of the syllabus posted every semester in Blackboard. Events not on the official list may qualify if approved by the department chair ***before*** the event.

A music major who fails Recital Lab may get the "F" changed to "P" by making up the number of concerts missed during the next full semester (fall or spring). In order to make up for the "F", you will have to attend two events for each missed recital. If you are making up a failing grade in Recital Lab from a previous semester, you must inform the department chair that you are doing so. He/she will not take it for granted.

All students, full or part-time, should also attend all Friday noon student recitals during the semester. They should be given first priority in the total number of recitals each student attends during the semester. Students should therefore avoid scheduling a class during the noon hour.

Bachelor of Music Education students are required to pass MUS 2020 seven semesters; BA Jazz Studies and Commercial Music, eight semesters; BA Musical Arts and Music (Business), four

semesters. Bachelor of Arts students in performance are required to pass MUS 2021 eight semesters.

Recitals

Friday Mixed Recitals: Every semester there are regularly scheduled student recitals Fridays at 12:05 pm which provide all students studying applied music the opportunity to perform. You and your teacher will determine when the time is right to perform on these recitals, which are great opportunities to grow as a solo performer.

Degree Recitals: The degrees Bachelor of Music Education, and Bachelor of Arts in Music (Performance and Jazz Studies and Commercial Music tracks) have recital requirements (MUS 3030, MUS 3130, MUS 3131, MUS 3230, MUS 4030, MUS 4031, and MUS 4740). All students must pass the junior standing jury before any of the recitals can be performed. Students registered for junior or senior recital must pass a recital hearing no later than **30 days in advance** of the scheduled recital date before being allowed to perform the recital. No exceptions will be made to this requirement. Students **must** be enrolled for recital **and** applied lessons during the semester it is given. The recital **must** be scheduled so that the applied teacher is present. If a student has registered for recital and for whatever reason does not give the recital that semester, recital must be dropped for that semester. No incompletes will be given. Hearing/recital committees must be comprised of at least 2 faculty members (full-time or adjunct). Hearing/recital committees will be selected in agreement with the studio instructor.

Other degree recital details:

Hearings: Students registered for MUS 3030, MUS 3130, MUS 3131, MUS 3230, MUS 4030, MUS 4031 and MUS 4740 must pass a recital hearing no later than **30 days in advance** of the scheduled recital date before being allowed to perform the recital. No exceptions will be made to this requirement. Hearing/recital committees must be comprised of at least 2 faculty members (full-time or adjunct). Hearing/recital committees will be selected in agreement with the studio instructor. The hearing committee will rule whether or not the student is allowed to perform their recital with designations of Pass, Fail, or Defer. If passed, the student may give the recital. If failed, the student must reschedule the recital and a hearing must be scheduled no later than 30 days in advance of the scheduled recital date. If deferred, the student must rectify certain areas of their performance as detailed in writing by the faculty hearing committee and perform those areas again no later than 2 weeks after the initial hearing. A junior recital must be at least twenty-five minutes of music in length. A senior recital must be at least fifty minutes of music in length.

Location: the student's private applied teacher will make reservations of recital hall chosen (CPA, Jazz Lab, FA 301, other). Recitals do not have to be in the evening, they can be in the afternoon.

Program: After the recital hearing has been successfully performed, the program is to be submitted in electronic format (Microsoft Word) to the department secretary at least three weeks in advance of the recital. The program must include the following information:

Name of performer and assistants (accompanist, etc.)

Time, date and place of the event

Name of the degree program in which the student is enrolled

Titles, movements, composers and dates

This information will be formatted to department specifications, and you and your teacher will have the opportunity to proofread the document. The student will be able to obtain a camera-ready copy to take to the printer of his or her choice.

Please check the Recital Lab list and be sure the recital is listed correctly.

Misunderstandings can occur, and it is best to clear them up as soon as possible.

Recording of Recitals and Ensembles

Recordings of all student degree recitals and ensemble performances are made by the Music Department upon request of the performer or conductor. Students requesting recordings of their degree recitals should contact the music facilities manager, at least two weeks prior to the recital. There will be a nominal charge for this service. Students may also obtain recordings of ensemble performances by following the same procedure. Allow at least two weeks for completion of CD.

Upper Level Credit

At least one fourth (25%) of the total semester hours in the major applied music area must be upper level (4000) credit from NSU (except BA Musical Arts and BA Music [Business] students). Before students may take upper level studio credit, they must pass the **Junior Standing** jury.

BA Musical Arts Electives: **The following upper level credits are required:**

6 hours in music at the 3000/4000 level and

12 hours that can either be music or in another academic area

BA Music (Business) Electives: **The following upper level credits are required:**

3 or 6 hours in music at the 3000/4000 level

(If both MUS 4993 and BLAW 3003 are taken, the number of electives needed is three. If ACCT 2203 is taken instead of either MUS 4993 or BLAW 3003, 6 hours of electives are required.)

Education Internships

Level	School District	School	Teacher	Diversity Rating	Semester
Pre-Intern I					
Pre-Intern II					
Full Internship: Elementary					
Full Internship: Secondary					

- At least one internship must be assigned at a Diversity Level III school district, and only one may be assigned at a Diversity Level I school district.
- One of the Pre-Intern levels must be assigned to an elementary level classroom, K-6, and the other to a secondary level classroom.
- During the Full Internship the student will spend 8 weeks assigned to an elementary level classroom. The other 8 weeks will be assigned to a secondary level classroom. Both Full Internship placements will be assigned in the same school district.

Professional Licensure Disclosure

Programs at Northeastern State University that prepare students for initial licensure as educators are designed to meet the licensure standards set by the Oklahoma State Department of Education. Students seeking licensure in another state are advised to contact the appropriate licensing board in that state to determine specific requirements of guidelines for reciprocity. Northeastern State University cannot confirm whether a particular licensure program meets requirements for licensure outside of the State of Oklahoma. For a list of the state departments of education that oversee professional teaching licensure, see the [U.S. Department of Education website - State Contacts](#) page

For questions related to licensure, please contact Lois Buttress (buttress@nsuok.edu).

Education Internships

Level	School District	School	Teacher	Diversity Rating	Semester
Pre-Intern I					
Pre-Intern II					
Full Internship: Elementary					
Full Internship: Secondary					

- At least one internship must be assigned at a Diversity Level III school district, and only one may be assigned at a Diversity Level I school district.
- One of the Pre-Intern levels must be assigned to an elementary level classroom, K-6, and the other to a secondary level classroom.
- During the Full Internship the student will spend 8 weeks assigned to an elementary level classroom. The other 8 weeks will be assigned to a secondary level classroom. Both Full Internship placements will be assigned in the same school district.

Professional Licensure Disclosure

Programs at Northeastern State University that prepare students for initial licensure as educators are designed to meet the licensure standards set by the Oklahoma State Department of Education. Students seeking licensure in another state are advised to contact the appropriate licensing board in that state to determine specific requirements of guidelines for reciprocity. Northeastern State University cannot confirm whether a particular licensure program meets requirements for licensure outside of the State of Oklahoma. For a list of the state departments of education that oversee professional teaching licensure, see the [U.S. Department of Education website - State Contacts](#) page

For questions related to licensure, please contact Lois Buttress (buttress@nsuok.edu).

Bachelor of College of Education

Basic Information for Music Education Majors

Language Requirement

All education students are required to:

1. Take a foreign language course, OR
2. Take a test at the College of Education to prove proficiency in a foreign language.

Note: All languages except for sign language may be taken for a humanities elective, thus filling both the foreign language requirement and 3 credits of humanities requirements with one course.

Pre-Internship I

Students must:

- ! Have earned 45 semester hours;
- ! Have a 2.5 grade point average;
- ! Have taken or be registered to take the Oklahoma General Education Test (OGET)-verification required;
- ! Allow 8 full days of Field Experience;
- ! Be enrolled in EDUC 3313, and 3113.

Pre-Internship II

Students must:

- ! Have successfully completed EDUC 3313 with a “C” or better;
- ! Have earned a 2.5 GPA in overall, major and professional education areas;
- ! Apply for internship: Internship applications are due the semester prior to the internship;
- ! Attend a placement seminar held the semester prior to the Pre-II internship;
- ! Be fully admitted to Teacher Education to enroll-See Professor Hunsaker or the College of Education for requirements;
- ! Allow 10 full days for Field Experience;

Full Internship

Students must:

- ! Have 2.5 GPA in overall, major and professional education areas;
- ! Have a “C” or better in all major and professional education courses;
- ! Have taken and passed the Oklahoma Subject Area Test (OSAT);
- ! Have an application on file in Clinical Education office the semester prior to Full Internship;
- ! Have successfully completed Full Internship Program interview with a university coordinator;
- ! Have attended Full Internship Orientation Seminar.

EDUC 4823 Technology in Education

A course which:

- ! Is a required course for degree/certification requirements for teacher education majors;
- ! Is available in the summer semester and also as an on-line course;
- ! Is recommended to take concurrently with EDUC 4032;
- ! Requires students be admitted to Teacher Education to enroll;
- ! Requires intermediate computer skills.

Note: Taking general education courses at least one summer can lower the total credit hours on other semesters.

Note: A maximum of three (3) hours of coursework may be taken concurrently with the Full Internship provided that it is approved by the department and does not interfere with the internship experience.

Note: For more information check Website: <https://academics.nsuok.edu/education/EducationHome.aspx>

Protect Your Hearing Every Day: Information and Recommendations for Student Musicians NASM/PAMA: November 2011 IV-2

Protect Your Hearing Every Day

Introduction

In working toward a degree in music, you are joining a profession with a long and honored history. Part of the role of any professional is to remain in the best condition to practice the profession. For all of you, as aspiring musicians, this involves safeguarding your hearing health. Whatever your plans after graduation – whether they involve playing, teaching, engineering, or simply enjoying music – you owe it to yourself and your fellow musicians to do all you can to protect your hearing.

As you may know, certain behaviors and your exposure to certain sounds can, over time, damage your hearing.

You may be young now, but you're never too young for the onset of hearing loss. In fact, in most cases, noise-related hearing loss doesn't develop overnight. (Well, some does, but we'll address that issue later in this document.) But the majority of noise-induced hearing loss happens gradually.

So the next time you find yourself blasting music through those tiny earbuds of your iPod or turning up the volume on your amp, ask yourself, —Am I going to regret this someday?|| You never know; you just might. And as a musician, you cannot afford to risk it.

The bottom line is this: If you're serious about pursuing a career in music, you need to protect your hearing. The way you hear music, the way you recognize and differentiate pitch, the way you play music; all are directly connected to your hearing. Do yourself a favor: protect it. I promise you won't regret it.

Disclaimer

The information in this document is generic and advisory in nature. It is not a substitute for professional, medical judgments. It should not be used as a basis for medical treatment. If you are concerned about your hearing or think you may have suffered hearing loss, consult a licensed medical professional.

Purpose of this Resource Document

The purpose of this document is to share with you some information on hearing health and hearing loss and let you know about the precautionary measures that all of us should practice daily. Protect Your Hearing Every Day: Information and Recommendations for Student Musicians NASM/PAMA: November 2011 IV-3

Music and Noise

This paper addresses what is termed —noise-induced hearing loss. You may be wondering why we’re referring to music—this beautiful form of art and self-expression—as “**noise.**”

Here’s why: What we know about hearing health comes from medical research and practice. Both are based in science where —noise|| is a general term for sound. Music is simply one kind of sound. Obviously, there are thousands of others. In science-based work, all types of sound, including music, are regularly categorized as different types of **noise.**

Terminology aside, it’s important to remember this fundamental point: A sound that is too loud, or too loud for too long, is dangerous to hearing health, no matter what kind of sound it is or whether we call it noise, music, or something else.

Music itself is not the issue. Loudness and its duration are the issues. Music plays an important part in hearing health, but hearing health is far larger than music.

All of us, as musicians, are responsible for our art. We need to cultivate a positive relationship between music and our hearing health. Balance, as in so many things, is an important part of this relationship.

Noise-Induced Permanent Hearing Loss

Let’s first turn to what specialists refer to as —noise-induced permanent hearing loss.||

The ear is made up of three sections, the outer, middle, and inner ear. Sounds must pass through all three sections before signals are sent to the brain.

Here’s the simple explanation of how we experience sound:

Sound, in the form of sound waves, enters the outer ear. These waves travel through the bones of the middle ear. When they arrive in the inner ear, they are converted into electrical signals that travel via neural passages to the brain. It is then that you experience —hearing|| the sound.

Now, when a **loud** noise enters the ear, it poses a risk to the ear’s inner workings.

For instance, a very loud sound, an explosion, for example, or a shotgun going off at close range, can actually dislodge the tiny bones in the middle ear, causing conductive hearing loss, which involves a reduction in the sound level experienced by the listener and a reduction in the listener’s ability to hear faint sounds. In many cases, this damage can be repaired with surgery. But loud noises like this are also likely to send excessive sound levels into the inner ear, where permanent hearing damage occurs.

The inner ear, also known as the **cochlea**, is where most hearing-loss-related ear damage tends to occur. Inside the cochlea are tiny hair cells that are responsible for transmitting sound waves to the brain. When a loud noise enters the inner ear, it can damage the hair cells, thus impairing their ability to send neural impulses to the brain.

The severity of a person’s noise-induced hearing loss depends on the severity of the damage to these hair cells. The extent of the damage to these cells is normally related to the **length** and **frequency** of a person’s exposure to loud sounds **over long periods of time.** Protect Your Hearing Every Day: Information and Recommendations for Student Musicians NASM/PAMA: November 2011 IV-4

Because noise-induced hearing loss is painless, you may not realize that it's happening at first. Then suddenly one day you will realize that you're having more and more trouble hearing high frequency sounds – the ones that are the most high-pitched. If you don't start to take precautions then, your hearing loss may eventually also affect your ability to perceive both speech sounds and music.

It is very important to understand that these hair cells in your inner ear cannot regenerate. Any damage done to them is permanent. At this time, there is simply no way to repair or undo the damage.

***FACT:** According to the American Academy of Audiology, approximately 36 million Americans have hearing loss. One in three developed their hearing loss as a result of exposure to noise.*

Noise-Induced Temporary Hearing Loss

Now it's also important to note that not all noise-induced hearing loss is necessarily permanent. Sometimes, after continuous, prolonged exposure to a loud noise, we may experience what's called —noise-induced temporary hearing loss.||

During temporary hearing loss, known as **Temporary Threshold Shift (TTS)**, hearing ability is reduced. Outside noises may sound fuzzy or muted. Normally, this lasts no more than 16 to 18 hours, at which point your hearing levels will return to normal.

Often during this Temporary Threshold Shift, people will experience tinnitus, a medical condition characterized by a ringing, buzzing, or roaring in the ears. Tinnitus may last only a few minutes, but it can also span several hours, or, in extreme instances, last indefinitely.

Also, if you experience a series of temporary hearing losses, you may be well on the way to permanent damage sometime in the future.

Noise Levels and Risk

Now, how do you know when a noise or sound is too loud—when it's a threat to your hearing health? Most experts agree that prolonged exposure to any noise or sound over **85 decibels** can cause hearing loss. You may have seen decibels abbreviated —dB.|| They are the units we use to measure the intensity of a sound.

Two important things to remember:

1. The longer you are exposed to a loud noise, the greater the potential for hearing loss.
2. The closer you are to the source of a loud noise, the greater the risk that you'll experience some damage to your hearing mechanisms.

At this point, it helps to have some frame of reference. How loud are certain noises? Protect Your Hearing Every Day: Information and Recommendations for Student Musicians NASM/PAMA: November 2011 IV-5

Consider these common sounds, their corresponding decibel levels, and the recommended maximum exposure times established by the National Institute for Occupational Safety and Health (NIOSH), a branch of the Centers for Disease Control and Prevention (CDC).

Sound Intensity (dB) Maximum Recommended Exposure (approx.)* A Whisper 30 Safe, No maximum Rainfall (moderate) 50 Safe, No maximum Conversation (average) 60 Safe, No maximum Freeway Traffic 70 Safe, No maximum Alarm Clock 80 Safe, No maximum 85 Potential Damage Threshold Blender, Blow-dryer 90 2 hours MP3 Player (full volume), Lawnmower 100 15 minutes Rock Concerts, Power Tools 110 2 minutes Jet Plane at Takeoff 120 Unsafe, Immediate risk Sirens, Jackhammers 130 Unsafe, Immediate risk Gunshots, Fireworks (close range) 140 Unsafe, Immediate risk *NIOSH-recommended exposure limits

You can listen to sounds under 85 dB for as long as you like. There is no risk involved, well, except for the risk of annoyance. But seriously, for sounds in this lower decibel range, listening to them for hours on end does not pose any real risk to your hearing health.

85 dB is the magic number. Sounds above the **85 dB threshold** pose a potential threat to your hearing when you exceed the maximum recommended exposure time.

MP3 players at full volume, lawnmowers, and snowblowers come in at 100 dB. The recommended maximum exposure time for these items is 15 minutes.

Now, before you get too worried and give up mowing the lawn, remember, there are ways to reduce your exposure.

For instance, turn down the volume on your MP3 player. Did you know that normally, MP3 players generate about 85 dB at one-third of their maximum volume, 94 dB at half volume, and 100 dB or more at full volume? Translated into daily exposure time, according to NIOSH standards, 85 dB equals 8 hours, 94 dB equals 1 hour, and 100 dB equals 15 minutes. Do yourself a favor, and be mindful of your volume.

Also, remember to wear a pair of earplugs or earmuffs when you mow the lawn or when you use a snowblower.

When you're dealing with sounds that produce between 120 and 140 dB, you're putting yourself at risk for almost immediate damage. At these levels, it is imperative that you utilize protective ear-coverings. Better yet, if it's appropriate, avoid your exposure to these sounds altogether.

FACT: *More than 30 million Americans expose themselves to hazardous sound levels on a regular basis.* Protect Your Hearing Every Day: Information and Recommendations for Student Musicians NASM/PAMA: November 2011 IV-6

Musicians and Noise-Induced Hearing Loss

Nowadays, more and more is being written about the sound levels of certain musical groups. It's no secret that many rock concerts expose performers and audiences to dangerously high levels of noise. The ringing in your ears after a blaring rock concert can tell you that. But now professional and college music ensembles are under similar scrutiny.

It's true that musicians are exposed to elevated levels of sound when they rehearse and perform music. But that doesn't equal automatic risk for hearing loss.

Take for instance a typical practice session on the piano. When taken at close range to the instrument over a limited period of time, a sound level meter fluctuates between a reading of 60 and 70 decibels. That's similar in intensity to your average conversation (60dB). There will, of course, be moments when the music peaks and this level rises. But these moments are not sustained over several hours. At least not under normal practice conditions.

While the same is true for most instruments, it is important to understand that certain instrumental sections tend to produce higher sound levels. Sometimes these levels relate to the piece of music being performed and to notational requirements (*pianissimo*, *fortissimo*); other times, these levels are what naturally resonate from the instrument.

For example, string sections tend to produce decibel levels on the lower end of the spectrum, while brass, percussion, and woodwind sections generally produce decibel levels at the higher end of the spectrum.

What's important is that you are mindful of the overall volume of your instrument and of those around you. If you're concerned about volume levels, share your concerns with your instructor.

***FACT:** Approximately 50% of musicians have experienced some degree of hearing loss.*

Mindful Listening

Now, let's talk about how you can be proactive when it comes to music and hearing loss.

It's important to think about the impact noise can have on your hearing health when you:

1. Attend concerts;
2. Play your instrument;
3. Adjust the volume of your car stereo;
4. Listen to your radio, CD player, and MP3 player.

Here are some simple ways to test if the music is too loud:

It's too loud (and too dangerous) when:

1. You have to raise your voice to be heard.
2. You can't hear someone who's 3 feet away from you.
3. The speech around you sounds muffled or dull after you leave a noisy area.
4. You experience tinnitus (pain, ringing, buzzing, or roaring in your ears) after you leave a noisy area.

Evaluating Your Risk for Hearing Loss

When evaluating your risk for hearing loss, ask yourself the following questions:

1. How frequently am I exposed to noises and sounds above 85 decibels?
2. What can I do to limit my exposure to such loud noises and sounds?
3. What personal behaviors and practices increase my risk of hearing loss?
4. How can I be proactive in protecting my hearing and the hearing of those around me?

Basic Protection for Musicians

As musicians, it's vital that you protect your hearing whenever possible.

Here are some simple ways to reduce your risk of hearing loss:

1. When possible, avoid situations that put your hearing health at risk.
2. Refrain from behaviors which could compromise your hearing health and the health of others.
3. If you're planning to be in a noisy environment for any significant amount of time, try to maintain a reasonable distance from the source of the sound or noise. In other words, there's no harm in enjoying a fireworks display, so long as you're far away from the launch point.
4. When attending loud concerts, be mindful of the location of your seats. Try to avoid sitting or standing too close to the stage or to the speakers, and use earplugs.
5. Keep the volume of your music and your listening devices at a safe level.
6. Remember to take breaks during a rehearsal. Your ears will appreciate this quiet time.
7. Use earplugs or other protective devices in noisy environments and when using noisy equipment.

Future Steps

Now that you've learned about the basics of hearing health and hearing loss prevention, we encourage you to keep learning. Do your own research. Browse through the links provided at the end of this document. There's a wealth of information out there, and it's yours to discover.

Conclusion

We hope this resource document has made you think more carefully about your own hearing health. Just remember that all the knowledge in the world is no match for personal responsibility. We've given you the knowledge and the tools; now it's your turn. You are responsible for your exposure to all sorts of sounds, including music. Your day-to-day decisions have a great impact on your hearing health, both now and years from now.

Do yourself a favor. Be smart. Protect your precious commodity. Protect your hearing ability. Protect Your Hearing Every Day: Information and Recommendations for Student Musicians NASM/PAMA: November 2011 IV-8
