

Science and Technology Seminar Series

- Sep 7 **Is the Magic in the Muscle: Targeting Skeletal Muscle as a Buffer Against Cardiometabolic Disease**
Joshua Butcher
Department of Physiological Sciences, College of Veterinary Medicine, Oklahoma State University
<https://nsuok.zoom.us/j/98758523996>
- Sep 21 **Impact of Social Stress in Adolescent Oxycodone Dependence and Withdrawal: Is the Microbiota-Gut-Brain Axis Implicated?**
Dolores Vazquez-Sanroman
Department of Anatomy and Cell Biology, Oklahoma State University Center for Health Sciences
<https://nsuok.zoom.us/j/97099112594>
- Oct 5 **Sewage, Metals, and Sediments as Impediments to Stream Fish Conservation**
James Whitney
Department of Biology, Pittsburg State University
<https://nsuok.zoom.us/j/97082307571>
- Oct 19 **Metabolomic Approaches to Exploring Human Biology and Behavior**
Jacob Haffner
Department of Anthropology, University of Oklahoma
<https://nsuok.zoom.us/j/94134633913>
- Nov 2 **In Search of Ringed Salamanders (*Ambystoma annulatum*): Biology, Ecology, and Conservation**
Brian Becker
Department of Biology, University of Arkansas
<https://nsuok.zoom.us/j/94934504744>
- Nov 16 **Managing Bacterial Chondronecrosis with Osteomyelitis in Broiler chicken: Are Beta-defensins the next Antibiotics?**
Nnamdi Ekesi
Department of Natural Sciences, Northeastern State University
<https://nsuok.zoom.us/j/98214280545>
